

## THE LATEST PROJECT NEWS ...

The second project meeting was held on February 13th and 14th in Krnov, a town in the East of the Czech Republic. The first outcome of the project consisting of a Research and Audit phase has been successfully completed. The third meeting of the project will be held in Kaunas, Lithuania during July 2018.

*I've never run my own business before. How do I teach that to others?*

## MILESTONES JUST ACHIEVED ...

To complete the first phase each project partner conducted in-country research and audit interviews with VET professionals and micro enterprise business owners. Project partners Kaunas STP and INNEO collated the results of the in-country research in a Summary Research & Audit Report. Thanks to the comprehensive research process, we have identified key learning needs of VET professionals. These will inform the proposed CPD curriculum and support them in their work with micro-enterprises through the use of non-traditional learning platforms.

We have identified the skills needed to help VET professionals produce media-rich mini-learning format resources. The audit also identified the development needs of micro-enterprise owners to ensure that they can participate fully in learning networks. In addition, we have conducted a comprehensive audit of available skills and knowledge within the business community that might be made available to other micro-enterprise owners through peer-to-peer learning networks.

## WHAT ME2ME IS ABOUT ...

ME2ME is an innovative project that aims to develop bespoke peer-to-peer learning networks in real and virtual environments. Micro-enterprise owners can share their knowledge and skills with other business owners supported by duly trained VET professionals.

## WHO ME2ME IS ...

The ME2ME consortium consists of 9 experienced partners representing 9 countries: Poland, Lithuania, United Kingdom, Hungary, Romania, Ireland, Finland, Switzerland and Czech Republic.

*I need an experienced tutor. I need to learn more about running my own business.*

## WHAT PROJECT RESULTS CAN YOU LOOK FORWARD TO ...

From a resource perspective a totally new training resource for VET professionals will be provided; a bespoke Induction to Pedagogy training programme for business owners will be developed; a suite of mini-learning-format resources will be provided addressing key themes identified by business owners; a bespoke on-line learning environment will be developed and populated with the innovative mini-learning-format resources. All developed resources will be available on-line in English and in partner languages and made available to all interested parties without restriction.
